"This entry was very well done. From the goals and achievements to the graphics. I loved it. Very well done. The City of Irving write-up was very well written. The Problem/Opportunity Statement, Intended Goals or Outcomes, Documentation of Achievement, etc. were very informative, easy to read and understand. I appreciated the analytics being easy to decipher. As far as the website --- wow wow wow. The colors, the branding, and the easy to click on tabs for each project were remarkable. Very easy to navigate and get the information the public is looking for. I loved the progress at a glance and the cost information as well. To think this was done in such a short span of time is amazing. I could go on and on about how great I think this website is, but just know--YOU NAILED IT! Great job!"

"I really liked that you showed the "before" website. It truly helped me to see and compare the new site to the old site. The new website flows much better and is much more visibly appealing. It also looks much better on a mobile device. I liked that you had a company check your accessibility score. Your write-up was very thorough. I liked that you shared comments from Councilmembers and others giving the site kudos. The new website is a great improvement, and all of your hard work shows. Employment and career traffic increased by 178%-- amazing!"
