City Plan — Vision 2045

City of Amarillo, TX

Judges' Comments

"It was very well done! The message was clear, the problem was well defined and the correct actions were taken. The plan shows creativity and innovation in its efforts. Getting people to participate in community visioning is really tough. It's clear that Amarillo spent time reaching out to as many of their residents as possible to receive a diverse set of opinions and feedback."

"Your team did a great job of tackling a tough project! I especially liked the concerted effort to demystify a complicated and confusing topic, which no doubt helped empower your residents to take part in the process through all the areas you offered."

Ascend Lebo -- The 2023 Comprehensive Plan for Mt. Lebanon, Pennsylvania

City of Mt. Lebanon, PA

Judges' Comments

"This plan is so visually striking - you'd know it was Mt. Lebanon from a mile away! Great job identifying the lack of participation in prior comprehensive plan processes and finding ways to overcome barriers to change that."
